WALL PROTECTIONS  
& HANDRAILS

**SpM.**  
wall protection

### Who are we?

Expert on wall protections and handrails for nearly 40 years, SPM, a Gerflor Group company, develops **innovative, decorative and eco-responsible solutions to protect, enhance and ensure the sustainability of facilities** open to the public.

In a hotel environment, which is constantly frequented by people, a refined and welcoming decor is essential. **SPM provides solutions to protect walls and doors lastingly** from friction and impacts. Resistant to frequent washing and easy to install, they embellish your premises through easier maintenance while adding an aesthetic touch.

### Design & decoration: a palette of elegant and attractive colours

Developed with our partner architects and colourists, SPM products combine **design, ergonomics and resistance** and blend harmoniously into your hotel. Wall protection contributes to the decoration, to offer a pleasant setting for your guests, and a unique style that sets your hotel apart.

## PROTECTION AND ACCESSIBILITY

Hotels are subject to accessibility regulations. SPM signage solutions help your guests to find their way around easily. The ergonomically designed SPM handrail profiles are especially suitable for people with reduced mobility, allowing them to move around safely in staircases and inside the hotel.

## SPM AND ACCESSIBILITY STANDARDS

Whatever design, handrails shall be provided at each side of the staircases and meet some requirements, depending on the countries:

- be located from 0.80 to 1.00 m above floor level
- be extended by the length of one step beyond the first and last step
- be continuous, rigid and easy to grip
- be different from the wall thanks to a visual contrast.

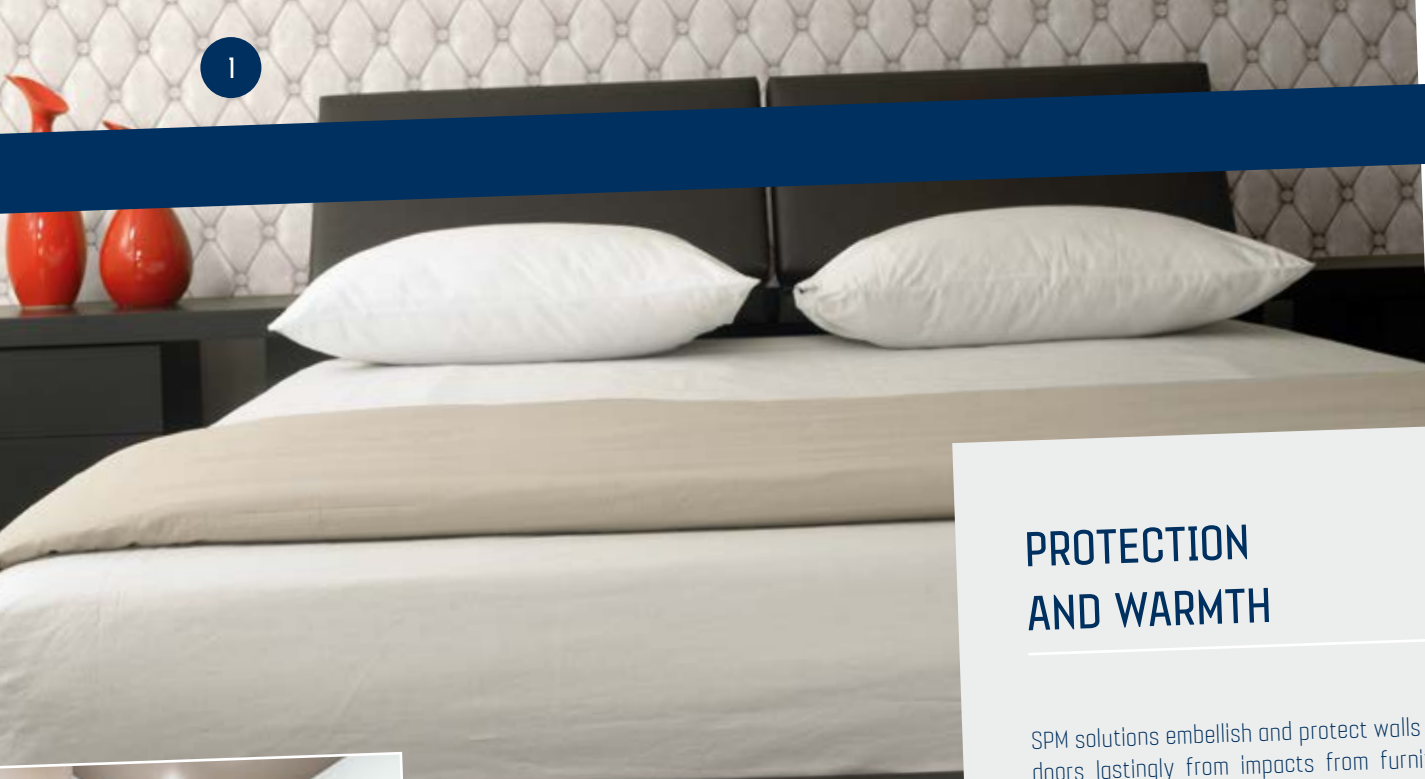

SPM provides you with solutions to meet these requirements:

- **RAPID'ANGLE®** fits all layouts and makes possible to ensure the continuity of the handrail in staircases
- **The wide SPM colour range** allows contrast of the handrail with the colour of the wall.
