Solutions**

Wall Protections & Handrails

Spm[®]
wall protection

Know-how for over 40 years

WALL PROTECTIONS AND HANDRAILS SPECIALIST

SPM, a Gerflor Group company, offers solutions for protecting walls, doors and corners and for assisting people moving around in compliance with French legislation applicable to public buildings.

AWARE OF THE REQUIREMENTS OF EACH

Present in education, healthcare, housing, sport, hospitality, industry and shops markets... and aware of the requirements of each, SPM develops products that are resistant to shocks, scratches, cleaning agents and disinfectants, Bs2d0 fire-rated and easy-to-install while adopting an environmentally responsible approach. SPM wall protections and handrails blend seamlessly into all locations thanks to a wide choice of colours and designs.

NEAR YOU ACROSS THE WORLD

Because providing you with solutions perfectly tailored to your needs has been our priority for more than 40 years, we have established sales divisions near you. In France and in other countries, your SPM contacts know your infrastructures, your requirements, those relevant to your sector of activity and can answer any technical questions you may have.

In child care centres, gymnasiums, schools, collective catering and leisure facilities, etc., intensive or repetitive traffic can cause significant premature wear.

These living and work spaces need to be comfortable and fit for purpose; for this reason, SPM has created wall protection and handrail ranges meeting your needs.

WE OFFER SOLUTIONS THAT MEET YOUR REQUIREMENTS

RESISTANCE

- Resistance to impacts, shocks and scratches

CONFORMITY

- Comply with the French laws for public buildings

EASY AND QUICK INSTALLATION

- Suitable for installation by a technician
- Limited installation-related nuisances and disturbances: installation while in use (solvent-free glue, etc.)

ACCESSIBILITY

- Comply with the French interministerial circular Nr DGUHC 2007-53 dated 30/11/07

HYGIENE AND DECONTAMINATION

- 100% antibacterial (reports by Nosoco.tech)
- 99.96% proven virucidal activity against human coronavirus HCoV-229E on our PVC handrails and panels according to ISO 21702 standard
- 100% decontaminable (tests by Anios and Institut Pasteur)
- 100% watertight with the hot-welded Decochoc / vinyl floor system

ATTRACTIVE AND DECORATIVE

- Wide selection of colours and decorative cutouts
- Enhancement of premises through easier maintenance

MAINTENANCE

- Easy care and cleaning
- Lower maintenance costs

LONGER SERVICE LIFE

- Increase service life of premises
- Avoid repainting and repairing damaged areas

ENVIRONMENT

- Exemplary composition (no heavy metals, PBT-free, BPA-free, very low VOC emissions, etc.)
- 100% recyclable range
- Lower environmental impact during installation and use

EACH OF YOUR EXPECTATIONS IS MET

100% ANTIBACTERIAL

A range that respects the environment

SPM has always considered its customers and the environment as absolute priorities. Our wall protections and handrails are designed to last as long as possible, make life easier for users and preserve their health. We are focused on our ambition of providing increasingly eco-friendly solutions by working on each stage in the product lifecycle, from design and production through to use and end-of-life.

TAKE A CLOSER LOOK AT OUR ACTIONS:

Design
Eco-design, a top priority

Production
Produce while minimising our footprint

Use
User health and safety come first

Building certification
Go beyond regulatory requirements

Design Eco-design, a top priority

• EXEMPLARY COMPOSITION

Sustainable formulation

SPM PVC products contain no heavy metals, such as lead, cadmium, arsenic and tin, and are PBT-free (Persistent Bioaccumulative Toxic substances) and BPA-free (Bisphenol A).

Calcium-zinc thermal stabilisation

For several years, SPM has chosen to use calcium-zinc stabilisation, which is non-toxic and harmless for the environment. SPM is therefore ahead of the game, emphasising yet again its commitment to sustainable development.

• TRANSPARENT COMMUNICATION ABOUT OUR PRODUCTS' CARBON IMPACT

Environmental & Health Product Declarations (EHPDs) measure the carbon impact at each stage in the product's lifecycle, including raw materials, production, transport, implementation and end-of-life.

These declarations are **carried out by an independent laboratory** and used to measure and compare the environmental impacts of the different products, materials, and so on.

The EHPDs for the PVC wall protection panels are available on request.

• RESTRICT THE USE OF CLEANING PRODUCTS

The finish on our products (smooth or slightly textured) has been specifically designed to ensure easy cleaning and consequently **reduce the amount of water and detergents used**. In addition, fitting our wall protections can considerably extend the intervals between wall repairs and renovation work.

• 100% REACH-COMPLIANT FORMULATIONS

REACH (Registration, Evaluation, Authorisation and restriction of Chemicals) is a European regulation aimed at creating a safer framework for the production and use of chemicals in European industry and thereby improving **protection standards for human health and the environment** against chemical-related risks.

REACH is used to list, evaluate and restrict the chemicals manufactured, imported and placed on the European market.

We guarantee that our products do not contain **any substances** on the REACH restrictions list.

• GUARANTEE SUSTAINABLE AND LONG-LASTING PRODUCTS

A product's service life is one of the most important criteria in terms of its impact on the environment. We are committed to manufacturing **sustainable products**.

Our products have an average service life of 25 years!

Production Produce while minimising our footprint

• RECYCLING

Our materials are mainly PVC and aluminium, and are therefore **100% recyclable**. All our offcuts are recycled into the manufacturing process.

• A CUTTING SERVICE TO REDUCE WASTEFUL OFFCUTS

SPM provides its customers with a cutting service (depending on the models) prior to shipping. Factory-based pre-cuts **avoid wasteful offcuts at the installation site**.

• AVERAGE CONTENT OF RECYCLED MATERIALS IN OUR PRODUCTS

Several years ago, we began incorporating recycled PVC into our panel manufacturing processes.

To date, our PVC wall protection panels include an average of **24% recycled materials**, and our aluminium profiles may contain up to **60% recycled aluminium**.

Use User health and safety come first

• IMPROVE INDOOR AIR QUALITY

Our products are tested in accordance with ISO 16000-6 and emit less than 100 µg/m³ after 3 days, which is tiny compared to the threshold. Therefore, our products have an **A+ rating**. In addition, they do not emit any formaldehyde.

According to French regulations
* Information about the emission level of volatile substance in inside air, involving a toxic risk by inhalation, on a scale from A+ (very low emissions) to C (high emissions).

• GREENGUARD GOLD-CERTIFIED PANELS

Our panels have been awarded the Greenguard Gold label for their **low emissions** ensuring good indoor air quality.

• SOLVENT-FREE ADHESIVES

We recommend the use of SPM adhesives to install our products, either a water-based acrylic adhesive or a universal MS polymer-based mastic glue. Our adhesives are **solvent-free** and therefore present no threat to users' health or the environment.

Building certification Go beyond regulatory requirements

All SPM solutions can extend a facility's service life and considerably widen the intervals between wall / door repair and renovation work. As such, they can contribute to environmental building certification, where their contribution varies depending on the product characteristics and technologies used.

• HQE STANDARD

In France, the HQE High Environmental Quality standard is a **global approach** specifying criteria for buildings to «manage impacts on the outdoor environment and create a pleasant and healthy indoor environment».

SPM products can be used in building projects aimed at achieving High Environmental Quality certification for their high environmental performance.

• LEED™ CERTIFICATION

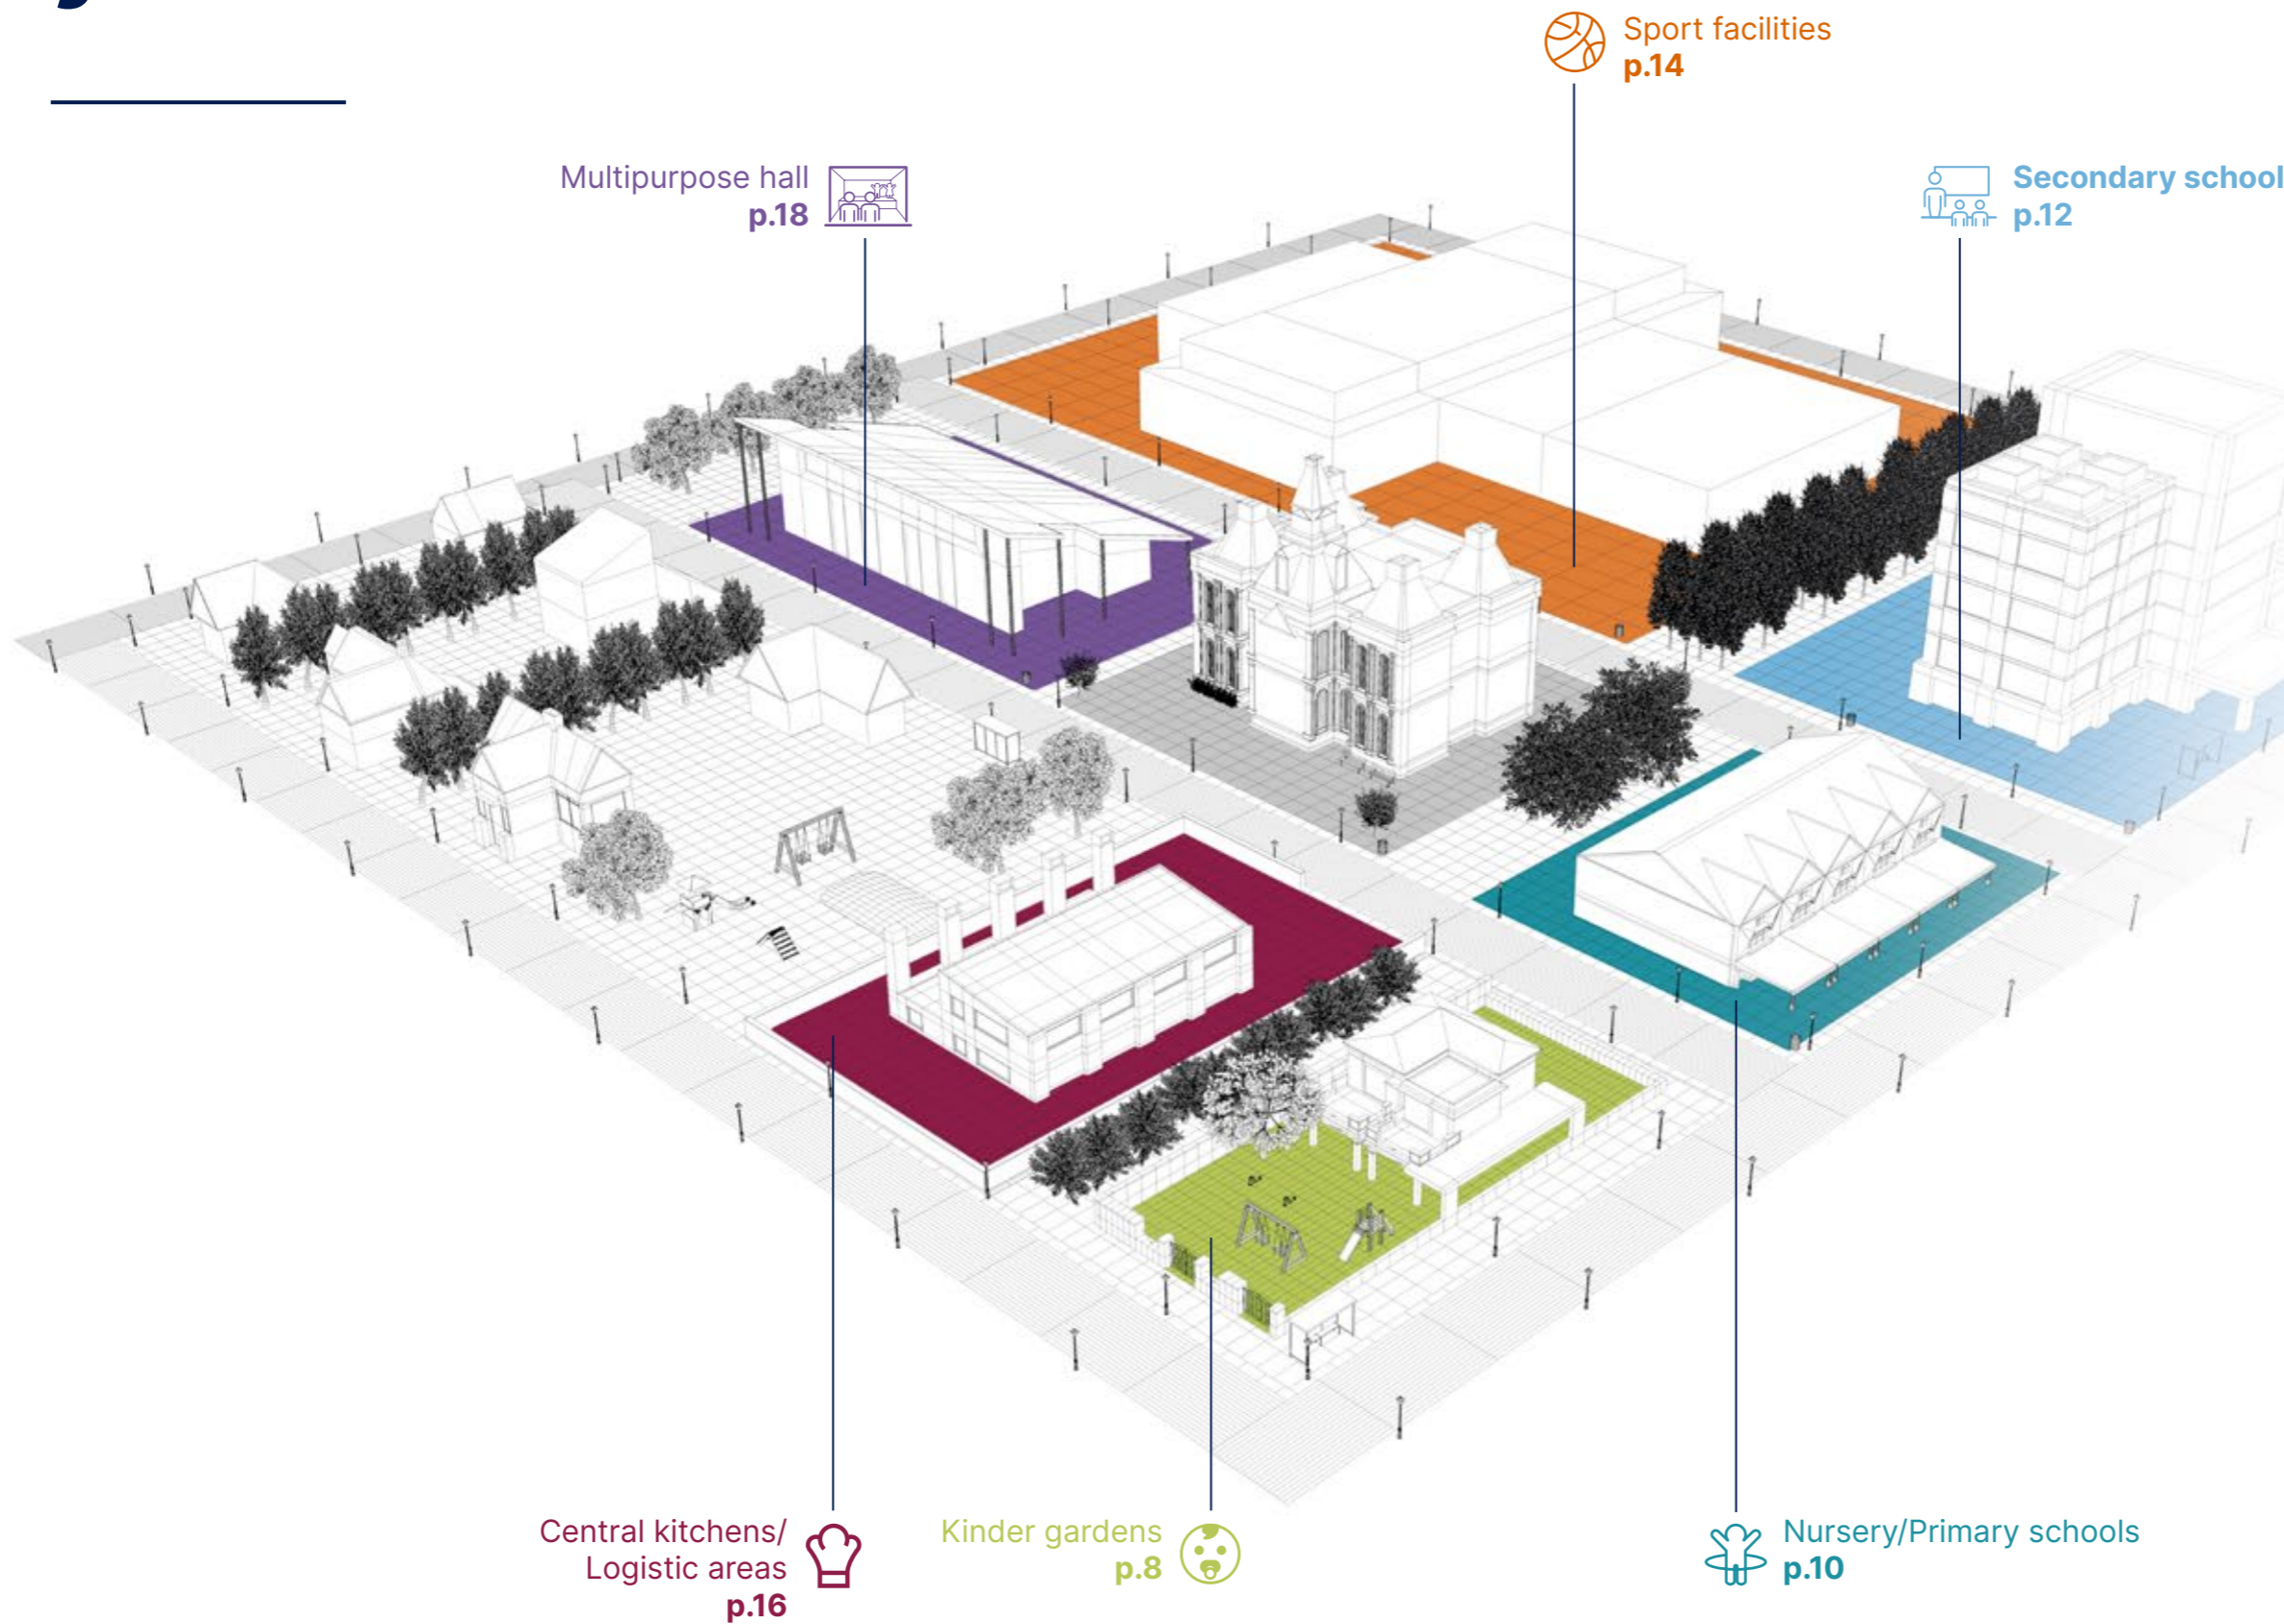

LEED™ (Leadership in Energy and Environmental Design) is a renowned international green **building certification system** developed by the US Green Building Council (USGBC).

SPM products can provide points towards LEED™ certification.

Solutions for your facilities

Kinder gardens

YOUR CONCERNS

- ✓ Bright and welcoming space
- ✓ Impacts by furniture
- ✓ Premature wear
- ✓ Hygiene and easy care
- ✓ Sharp angles
- ✓ Finger pinching in the doors

OUR SOLUTIONS

Corridors, early learning rooms, sleeping areas, sanitary arrangements, etc. are all areas which are damaged over time by intensive use by children, friction and impacts caused by furniture and repeated cleaning. In addition to their protective and safety functions, SPM solutions help create a bright, colourful and fun space for the early childhood sector.

ACCESSORIES

PATENTED

RAPID'ANGLE®
Adjustable and variable 3D angle (80° to 180°) for staircases and corners. Made of antibacterial PVC with bactericidal joints.
Available for Escort and for Linea'Touch

PATENTED

RAPID'ACCESS®
Articulated link for service ducts. Made of antibacterial PVC with bactericidal joints.
Available for Escort only (Chalk or anodised look)

BACTERICIDAL JOINT

The roughness of the handrail, at the junction between profile sections and finishing accessories, collect the majority of contamination and are the most difficult points to clean. For this reason, all SPM handrails are fitted with bactericidal joints, treated integrally and undamaged by cleaning. Their bactericidal action, proved by an independent laboratory, complements the bacteriostatic and antibacterial properties of our handrails in a smooth finish.

Discover the technical solutions in our catalogue, available on request.

SPM OFFERS...

... a range of colours designed with the help of architects, interior designers, users, etc. The colour chart with 39 colours, from the most sober to the most daring, gives a new identity to interior designs whilst blending perfectly with other decorative elements such as floors, walls, doors, etc.

This palette brings together neutral, sober, mineral shades that blend naturally with architectural design and vivid, refreshing, fullbodied and youthful colours. Tinted greys provide subtle, muted ambiances. Let SPM wall protection play a dynamic role in the aesthetic appearance of your facility.

PLEASE NOTE

- LRV (Light Reflectance Value) measures based on Decochoc panel.
- In order to speed up delivery of your orders, we have adapted our colour range in line with our products. Most of our products are available in all 39 colours in the range.

Decowood Range

7 WOOD EFFECT DECORS

A COORDINATED RANGE

SPM offers a full range of decorative wood decors for use in those establishments that wish to combine wall protection and handrails with the warmth of wood. This range consists of products matched to various requirements, providing safety for all with the Escort, Linea and Starline handrails, wall and door protection with Decowood protection panel and corner protection with the bent Decowood panel.

A WIDE CHOICE OF WOOD DECORS

The range has been expanded with two new wood decors, chosen to suit all interiors. To the five existing decors Maple, Light Oak, Stripped Pine, Cedar and Smoky Cedar, we have added Cherry and Walnut.

Linea Touch Decowood Handrail

Escort Decowood Handrail

Adhesive corner protector in bent Decowood

Decotrend range

4 TREND DECORS

TO COMBINE DECORATION AND PROTECTION

SPM has designed some new decors to inspire the creation of individual, distinctive and damage resistant spaces. The overall approach is modern and urban. These decors lend themselves to some astonishing visual effects:

- a striking appearance of "Brushed Aluminium"
- a resolutely material effect with "Raw concrete"
- An oxidised steel look with "Green Corten" and "Rust Corten"

Adhesive corner protector in bent Decotrend
