## EXPERT IN WALL PROTECTIONS AND HANDRAILS

SPM, a Gerflor Group company, offers solutions to protect and decorate walls, doors and corners, and help people move around safely, in compliance with legislation for establishments open to the public.

## EARLY CHILDHOOD, NURSERY AND PRIMARY SCHOOLS

One of your expectations is to guarantee a protected, healthy and cheerful environment for small children.

SPM offers solutions to protect walls, doors and corners, available in a range of colours to create welcoming and fun spaces. Easy to maintain, they also meet the most stringent hygiene standards.

The cut-out shapes and customisable panels will help the youngest children with their learning.

# EDU- CATION

## SECONDARY SCHOOLS AND HIGHER EDUCATION ESTABLISHMENTS

Repeated passage of pupils or students, deliberate damage, rubbing of bags and knocking of furniture are all reasons why your school or establishment needs regular renovation.

Choosing SPM wall protection means ensuring that your school or establishment has long-term protection, with lower renovation costs and a pleasant environment for all, pupils and teachers alike.

## HOSPITALS AND PUBLIC HEALTH ESTABLISHMENTS

SPM wall protections are designed to withstand the most sustained shocks and impacts from medical equipment and protect the facility from bacteria and microbes.

They provide a healthy (proven virucidal activity\*) and welcoming environment for patients and their carers.

SPM solutions are also resistant to the most demanding disinfection products used in hospitals.

## CLINICS, RETIREMENT HOMES AND SPECIALISED ESTABLISHMENTS

By playing with contrasts, different cut-out and signage options, handrail accessories, etc., SPM's solutions combine protection and inclusion, and support residents and patients in complete safety.

The combination of colours and designs from the wide range helps create a warm atmosphere in a care facility.

## FITNESS CENTRES, GYMS AND CLUBS

Impacts and knocks from equipment, wear and tear and repeated use by members all gradually deteriorate your premises.

SPM offers a wide range of solutions to provide long-term protection for walls, doors and corners at a lower cost.

Choose from our wide range of colours and designs to create an atmosphere that reflects your image.

The panels are thermo-welded together to protect against the damaging effects of damp.

## SHOPS, BUSINESSES AND SUPERMARKETS

The sales areas and storage spaces in shops are constantly under pressure from the heavy footfall of shoppers and the use of hand- and ride-on trolleys by staff.

SPM solutions offer long-lasting, effective protection right down to the most specific areas (positive cold rooms).

Neutral or coloured shades, or 100% customisable visuals, are just some of the possibilities for protecting your different spaces in your own colours.

## HOTELS AND RESTAURANTS

What are your expectations? A tasteful setting and warm atmosphere, combined with controlled renovation costs.

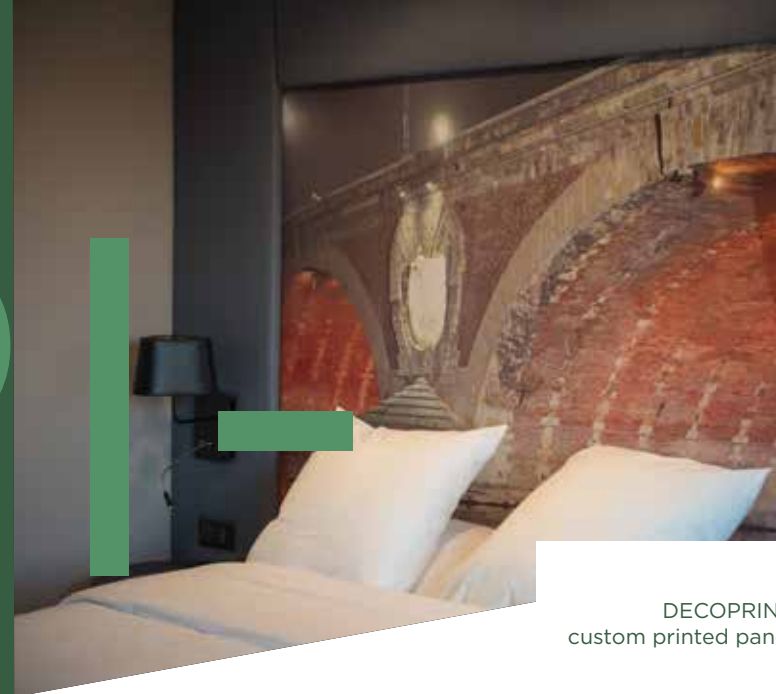

SPM solutions protect against wear and tear caused by the comings and goings of customers, traces and dirt from luggage and cleaning trolleys...

Resistant to frequent rubbing and cleaning, they provide lasting protection as well as decorating and creating a unique style in all areas of the establishment.

## STUDENT RESIDENCES, SOCIAL HOUSING, PRIVATE CONDOMINIUMS

Put to the test by the repeated passage of residents, in communal areas (entrance hall, stairwell, corridor) or private areas (shower room, kitchen, etc.), it is important to ensure the durability of the interiors, while respecting strong constraints.

With a controlled budget, SPM's solutions provide lasting protection against impact, make staircases safer to use and make maintenance easier.

Approved covering solutions for asbestos walls.
